

LUCA PEGOLOTTI

Machine Learning | Computational Science | Mathematical Modeling of the Cardiovascular System

EDUCATION & CERTIFICATIONS

Stanford University, Stanford (USA)

January 2023 - March 2023

Ignite program, Stanford Graduate School of Business.

Ignite is a 2-month intensive program centered on entrepreneurship and business fundamentals. One of the goals of the program is the development of a startup in a team.

PhD: EPFL, École Polytechnique Fédérale de Lausanne, Lausanne (CH) March 2017 - December 2020

PhD program in Applied Mathematics — advisor: Prof. Simone Deparis.

Thesis title: *Reduction techniques for PDEs built upon Reduced Basis and Domain Decomposition Methods with applications to hemodynamics.*

Stanford University, Stanford (USA)

January 2020 - April 2020

Visiting Student researcher in the Marsden Lab.

Program funded by a Swiss National Science Foundation scholarship.

M.Sc.: EPFL, Lausanne (CH)

September 2014 - January 2017

M.Sc. in Computational Science and Engineering.

Overall GPA: 5.5/6.0

B.Sc.: Politecnico di Milano, Milano (IT)

September 2011 - September 2014

B.Sc. in Mathematical Engineering.

Overall GPA: 27.4/30.0 - Final grade: 105/110

EXPERIENCE

Postdoctoral researcher at Stanford University, Stanford (USA)

August 2021 - Present

Advisor: Prof. Alison Marsden. My project focuses on the development of 1D reduced order models for cardiovascular simulations using deep learning (graph neural networks). I am also the main developer of the Vascular Model Repository website (www.vascularmodel.com).

Postdoctoral researcher at EPFL, Lausanne (CH)

January 2021 - June 2021

Advisor: Prof. Simone Deparis. The goal was to finalize projects started during my PhD and to facilitate the technology transfer (including the C++ code developed for my thesis) to the other members of the group.

Teaching assistant at EPFL, Lausanne (CH)

February 2015 - December 2019

Worked as a teaching assistant in: *i)* Analysis and Numerical Analysis courses for bachelor students and *ii)* courses in scientific programming and high-performance computing in C and C++ for master students.

President of the EPFL Chapter of SIAM, Lausanne (CH)

September 2018 - September 2019

Taken the role of president of the EPFL Chapter of SIAM (Society for Industrial and Applied Mathematics), which aims at promoting interchanges between academia and industry through events specifically targeted to bachelor and master students.

Worked in the Smart Embedded systems / Multicore group on the EMB² library (C++ library for parallel computations).

Tasks included: implementation of concurrent data structures and algorithms, use of the library to create test cases to demonstrate the improvement in performance.

CONFERENCES & WORKSHOPS

Title: *Learning reduced-order models for cardiovascular simulations with graph neural networks.*

Math 2 Product, Taormina (ITA)

June 2023

Title: *Learning reduced-order models for cardiovascular simulations with graph neural networks.*

Invited speaker at ETH, Zurich (CH)

May 2023

Title: *Leveraging graph neural networks for efficient reduced-order blood flow simulations.*

Int. Symp. on Computer Methods in Biomechanics and Biomedical Eng., Paris (FR)

May 2023

Title: *Learning reduced-order models for cardiovascular simulations with graph neural networks.*

Society of Engineering Science Meeting 2022, College Station (USA)

October 2022

Title: *Learning reduced-order models for cardiovascular simulations with graph neural networks.*

World Congress in Computational Mechanics IX, online conference

August 2022

Title: *Data-driven reduced-order models for cardiovascular simulations.*

Coupled Problems, Sitges (ES)

June 2019

Title: *Coupling non-conforming discretizations of PDEs by means of spectral Lagrange multipliers.*

Finite Elements in Fluids, Chicago (USA)

April 2019

Title: *Efficient Reduced coupling of non-conforming discretizations of PDEs.*

World Congress in Computational Mechanics XIII, New York (USA)

July 2018

Title: *Efficient reduced coupling of PDEs based on weak transmission conditions.*

AWARDS & ACHIEVEMENTS

Captain of the Vascular Model Repository Team, which was awarded the Significant Achievement Award in the DataWorks! Challenge by FASEB.

Awarded the Doc.Mobility scholarship by the Swiss National Science Foundation. The scholarship funded the research carried out at Stanford University during my PhD.

COMPUTER SKILLS

Programming languages	C, C++, Python, MATLAB, Javascript
Software	Microsoft VS Code, version control systems (Git), PyTorch, Tensorflow
Operating systems	Unix based systems (Mac OS/Linux), Windows
GitHub profile	https://github.com/lucapegolotti

LANGUAGES

Italian	Mother tongue
English	Advanced (C2/C1)
French	Intermediate (B2)
Mandarin	Basic (HSK 2)
